INDEX TO AUTHORS

ALBANUS, L., JÄRPLID, B., and SUNDWALL, A., the toxicity of some cholinesterase reactivating oximes, 120

ALLISON, Jr., F., see *Lockwood, W. R.*

APPLEYARD, G., and WESTWOOD, J. C. N., a protective antigen from the pox-viruses: II. Immunisation of animals, 162

——— ZWARTOUW, H. T., and WESTWOOD, J. C. N., a protective antigen from the pox viruses: I. Reaction with neutralising antibody, 150

ATKINSON, J. N. C. and SPECTOR, R. G., metabolism of glucose in anoxic-ischaemic rat brain, 393

BAIN, A. D. and GAULD, I. K., the use of thymus and spleen in the demonstration of chromosomes postmortem in foetuses and infants, 530

BIOZZI, G., STIFFEL, C., MOUTON, D., BOUTHILLIER, Y. and DECREUSEFOND, C., survival of spleen cells transplanted into syngeneic and allogeneic mice during stimulation of the reticulo-endothelial system induced by *Myco. tuberculosis* (BCG) injection, 357

BISWAS, S., MACDOUGALL, J. D. B. and COOK, R. P., the effect of various steroids, mainly of the C27 series, on the growth of chick heart explants, 13

BOUTHILLIER, Y., see *Biozzi, G.*

BRAS, G., see *McLean, E.*

BROCK, L. G., see *Warren, B. A.*

BROWN, PAMELA K. and TYRRELL, D. A. J., experiments on the sensitivity of strains of human fibroblasts to infection with rhinoviruses, 571

BUCHANAN, K. D. and MACGREGOR, R. F. S., prolongation of the survival of human red cells in mice by " Chemical splenectomy ", 248

BUNGAY, CELIA and WATKINS, J. F., observations on polykaryocytosis in HeLa cells infected with herpes simplex virus, 48

BURROWS, T. W., FARRELL, JANICE M. F. and GILLETT, W. A., the catalase activities of *Pasteurella pestis* and other bacteria, 579

BYROM, F. B., angiotensin and renal vascular damage, 7

CAVANAGH, J. B. and JACOBS, JEAN M., some quantitative aspects of diphtheritic neuropathy, 309

CHARLIER, H., see *Evrard, E.*

CITRI, N., see *Shilo, M.*

COOK, R. P., see *Biswas, S.*

COTTON, R. E., see *O'Grady, F.*

DARCY, D. A., response of a serum glycoprotein to tissue injury and necrosis. I. The response to necrosis, hyperplasia and tumour growth, 281

DÁVID, MARGIT A., see *Kovács, K.*

DAVIS, J. M. G., the ultrastructure of asbestos bodies from guinea-pig lungs, 634

——— the ultrastructure of asbestos bodies from human lung, 642

DECREUSEFOND, C., see *Biozzi, G.*

DEMPSTER, W. J., see *Tyler, H. M.*

——— see *Williams, M. A.*

——— see *Janigan, D. T.*

DIMMOCK, N. J. and TYRRELL, D. A. J., some physico-chemical properties of rhinoviruses, 271

DIXON, K. C., rolled films of dying liver cells, 481

EDWARDS, H. H., see *Stamp, Lord*

EVRARD, E., HOET, P. P., EYSSEN, H., CHARLIER, H. and SACQUET, E., faecal lipids in germ-free and conventional rats, 409

EYSSEN, H., see *Evrard, E.*

FARRELL, JANICE M. F., see *Burrows, T. W.*

FITZGEORGE, R. B., see *Smith, H.*

FRASER, F. J., see *Godwin, K. O.*

FRENCH, J. E., MACFARLANE, R. G. and SANDERS, A. G., the structure of haemostatic plugs and experimental thrombi in small arteries, 467

GARDNER, D. L., see *Laing, Christine P.*

GAULD, I. K., see *Bain, A. D.*

GILLETT, W. A., see *Burrows, T. W.*
